Dear Mr. Weisberg,

I am 27 years old and have recently become interested in the Kennedy assassination because of the Oliver Stone film, 'JFK.' I know you don't have much use for that film, but I can tell you that this is the first real exposure to this subject that my generation has had; I have no first-hand memories of Kennedy, and the schools teach us the Oswald-was-a-lone-nut-Marxist story.

I read your book *Case Open* after reading the disgraceful US News and World Report summary of Gerald Posner's *Case Closed*. I think I find the media's continuing coverup of this story to be one of the most disturbing elements of the case.

Your hard work and tenacious FOIA suits have been incredibly important; I wish all Americans cared so much about what goes on in their country. Anyway, I've been trying to locate some of your older books but haven't had much luck; I'd appreciate it if you'd send me pricing and ordering information on them, particularly the four volumes of *Whitewash*. Thanks a lot,

Mr. Tracy Riddle
